**Myths and Legends of the Celts**-James MacKillop 2006-06-01 Myths and Legends of the Celts is a fascinating and wide-ranging introduction to the mythology of the peoples who inhabited the northwestern fringes of Europe - from Britain and the Isle of Man to Gaul and Brittany. Drawing on recent historical and archaeological research, as well as literary and oral sources, the guide looks at the gods and goddesses of Celtic myth; at the nature of Celtic religion, with its rituals of sun and moon worship; and at the druids who served society as judges, diviners and philosophers. It also examines the many Celtic deities who were linked with animals and such natural phenomena as rivers and caves, or who later became associated with local Christian saints. And it explores in detail the rich variety of Celtic myths: from early legends of King Arthur to the stories of the Welsh Mabinogi, and from tales of heroes including Cúchulainn, Fionn mac Cumhaill and the warrior queen Medb to tales of shadowy otherworlds - the homes of spirits and fairies. What emerges is a wonderfully diverse and fertile tradition of myth making that has captured the imagination of countless generations, introduced and explained here with compelling insight.

**George Balanchine**-Robert Gottlieb 2004-10-26 Part of the Eminent Lives Series, this biography, written by the gifted author Robert Gottlieb, will describe the life of the dynamic George Balanchine, the foremost contemporary choreographer in ballet. Timed to coincide with the 2004 centenary of the artist's birth. The life and achievement of the great choreographer who both summed up everything that preceded him in ballet, and extended the art form into radical yet inevitable new paths. Leaving Revolutionary Russia in 1924 (he was 20), he joined Serge Diaghilev's famous Ballets Russes, where he created his first enduring masterpiece, Apollo, cementing his lifelong collaboration with Stravinsky. In 1933 he arrived in America to found a school and a company, but the company as we know it - The New York City Ballet - didn't emerge until 1948. Meanwhile, he made ballets wherever opportunity allowed, while choreographing Broadway shows (four for Rodgers and Hart), movies (The Goldwyn Follies), even the circus - a ballet for elephants with a score by Stravinsky. By the time of his death, in 1983, he had been recognized as a member of the triad of the greatest modern masters, alongside Picasso and Stravinsky. Balanchine was married many times, always to outstanding ballerinas, but his truest muse always remained Terpsichore, the Muse of Dance.
