**Medieval Studies and the Computer**-Anne Gilmour-Bryson 2014-05-19 Medieval Studies and the Computer focuses on the use of computers in medieval studies and humanities research. Topics covered range from encoding and conCORDing texts to the use of conceptual glossaries by medievalists, as well as the use of computers for compiling Middle English lexicography and the Wisconsin Dictionary of the Old Spanish Language. A computer analysis of metrical patterns in the epic Beowulf and of Notker Labeo's Old High German is also presented. Comprised of 26 chapters, this volume begins by discussing "contexts" in concordances and the set of conventions employed in text encoding. The reader is then introduced to the series of initiatives undertaken in Belgium to study Latin literature and linguistics; the use of conceptual glossaries by medieval scholars; and the use of the computer to make a word list of the Decretum Gratiani and to study Geoffrey Chaucer's vocabulary. Subsequent chapters discuss a computer program called KLIC (Key Letter In Context) for graphological analysis; a set of routines written in SAIL (Stanford Artificial Intelligence Language) for use by social historians in quantitative analysis or text processing; and the use of Mark IV, a general-purpose file management system, to analyze medieval charters. This book will be of interest to medievalists, social historians, students and scholars of humanities, and computer scientists.

**Intelligent Music Production**-Brecht De Man 2019-11-07 Intelligent Music Production presents the state of the art in approaches, methodologies and systems from the emerging field of automation in music mixing and mastering. **New Directions in Child Abuse and Neglect Research**-National Research Council 2014-03-25 Each year, child protective services receive reports of child abuse and neglect involving six million children, and many more go unreported. The long-term human and fiscal consequences of child abuse and neglect are not relegated to the victims themselves -- they also impact their families, future relationships, and society. In 1993, the National Research Council (NRC) issued the report, Under-standing Child Abuse and Neglect, which provided an overview of the research on child abuse and neglect. New Directions in Child Abuse and Neglect Research updates the 1993 report and provides new recommendations to respond to this public health challenge. According to this report, while there has been great progress in child abuse and neglect research, a coordinated, national research infrastructure with high-level federal support needs to be established and implemented immediately. New Directions in Child Abuse and Neglect Research recommends an actionable framework to guide and support future child abuse and neglect research. This report calls for a comprehensive, multidisciplinary approach to child abuse and neglect research that examines factors related to both children and adults across physical, mental, and behavioral health domains—including those in child welfare, economic support, criminal justice, education, and health care systems—and assesses the needs of a variety of subpopulations. It should also clarify the causal pathways related to child abuse and neglect and, more importantly, assess efforts to interrupt these pathways. New Directions in Child Abuse and Neglect Research identifies four areas to look to in developing a coordinated research enterprise: a national strategic plan, a national surveillance system, a new generation of researchers, and changes in the federal and state programmatic and policy response.

**Corporate Sustainability and Responsibility in Tourism**-Dagmar Lund-Durlacher 2019-05-03 This book offers essential insights into how the world's second largest industry, tourism, is responding to challenges involved in expanding the corporate social responsibility (CSR) concept to corporate sustainability and responsibility, referred to as CSR 2.0. It analyzes the typical setup of tourism with various types of commercial agents: corporations, small and medium sized enterprises, public-private partnerships, social enterprises and local cooperatives. In addition, the book examines a broad range of voluntary initiatives, the effectiveness of these efforts, and how contextual and wider policy features shape these relationships. The book is divided into three parts, the first of which elaborates on strategic drivers and rationales for CSR. In turn, the second part introduces readers to design approaches for CSR programs and envisaged impacts, while part three focuses on implementation, certification, reporting, and possible outcomes. Each part offers a mixture of theoretical perspectives, synthesis analyses and case studies. The respective chapters tackle a broad spectrum of tourism sub-sectors, e.g. the cruise industry, aviation, gastronomy, nature-based tourism, and urban destinations.

**Travel Marketing, Tourism Economics and the Airline Product**-Mark Anthony Camilleri 2017-10-03 This book provides a comprehensive introduction to travel marketing, tourism economics and the airline product. At the same time, it provides an overview on the political, socio-economic, environmental and technological impacts of tourism and its related sectors.This publication covers both theory and practice in an engaging style, that will spark the readers' curiosity. Yet, it presents tourism and airline issues in a concise, yet accessible manner. This will allow prospective tourism practitioners to critically analyze future situations, and to make appropriate decisions in their workplace environments. Moreover, the book prepares undergraduate students and aspiring managers alike with a thorough exposure to the latest industry developments. "Dr. Camilleri provides tourism students and practitioners with a clear and comprehensive picture of the main institutions, operations and activities of the travel industry." Philip Kotler, S.C. Johnson & Son Distinguished Professor of International Marketing, Kellogg School of Management, Northwestern University, Evanston/Chicago, IL, USA "This book is the first of its kind to provide an insightful and well-structured application of travel and tourism marketing and economics to the airline industry. Student readers will find this systematic approach invaluable when placing aviation within the wider tourism context, drawing upon the disciplines of economics and marketing." Brian King, Professor of Tourism and Associate Dean, School of Hotel and Tourism Management, The Hong Kong Polytechnic University, Hong Kong "The remarkable growth in international tourism over the last century has been directly influenced by technological, and operational innovations in the airline sector which continue to define the nature, scale and direction of tourist flows and consequential tourism development. Key factors in this relationship between tourism and the airline sector are marketing and economics, both of which are fundamental to the success of tourism in general and airlines in particular, not least given the increasing significance of low-cost airline operations. Hence, uniquely drawing together these three themes, this book provides a valuable introduction to the marketing and economics of tourism with a specific focus on airline operations, and should be considered essential reading for future managers in the tourism sector." Richard Sharpley, Professor of Tourism, School of Management, University of Central Lancashire, UK "The book's unique positioning in terms of the importance of and the relationships between tourism marketing, tourism economics and airline product will create a distinct niche for the book in the travel literature." C. Michael Hall, Professor of Tourism, Department of Management, Marketing and Entrepreneurship, University of Canterbury, Christchurch, New Zealand "A very unique textbook that offers integrated lessons on marketing, economics, and airline services. College students of travel and tourism in many parts of the world will benefit from the author's thoughtful writing style of simplicity and clarity." Liping A. Cai, Professor and Director, Purdue Tourism & Hospitality Research Center, Purdue University, West Lafayette, IN, USA "An interesting volume that provides a good coverage of airline transportation matters not always well considered in tourism books. Traditional strategic and operational issues, as well as the most recent developments and emerging trends are dealt with in a concise yet clear and rational way. Summaries, questions and topics for discussion in each chapter make it a useful basis for both taught courses or self-education." Rodolfo Baggio, Professor of Tourism and Social Dynamics, Bocconi University, Milan, Italy "This is a very useful introductory book that summarises a wealth of knowledge in an accessible format. It explains the relation between marketing and economics, and applies it to the business of airline management as well as the tourism industry overall." Xavier Font, Professor of Sustainability Marketing, School of Hospitality and Tourism Management, University of Surrey, UK and Visiting Professor, Hospitality Academy, NHTV Breda, Netherlands "This book addresses the key principles of tourism marketing, economics and the airline industry. It covers a wide range of theory at the same time as offering real-life case studies, and offers readers a comprehensive understanding of how these important industries work, and the underpinning challenges that will shape their future. It is suitable for undergraduate students as well as travel professionals, and I would highly recommend it." Clare Weeden, Principal Lecturer in Tourism and Marketing at the School of Sport and Service Management, University of Brighton, UK "In the current environment a grasp of the basics of marketing to diverse consumers is very important. Customers are possessed of sophisticated knowledge driven by innovations in business as well from highly developed technological advances. This text will inform and update students and those planning a career in travel and tourism. Mark Camilleri has produced an accessible book, which identifies ways to accumulate and use new knowledge to be at the vanguard of marketing, which is both essential and timely." Peter Wiltshier, Senior Lecturer & Programme Leader for Travel & Tourism, College of Business, Law and Social Sciences, University of Derby, UK "This contemporary text provides an authoritative read on the dynamics, interactions and complexities of the modern travel and tourism industries with a necessary, and much welcomed, mixture of theory and practice suitable for undergraduate, graduate and professional markets." Alan Fyall, Orange County Endowed Professor of Tourism Marketing, University of Central Florida, FL, USA

**Study and Master Life Sciences Grade 12 CAPS Study Guide**-Gonasagaren S. Pillay 2013-12-05

**Professional Communication**-Winnie Cheng 2009-04-01 "Professional Communication" presents ten studies of communication practices in a variety of professional contexts. By drawing on diverse methodologies from fields such as conversation analysis, intercultural communication, and organizational studies, the essays here examine how language is constructed, managed, and consumed in various professional situations, ranging from academic settings to business negotiations. One important theme of the book is its emphasis on the collaboration between researchers and professionals. The contributors strongly believe that such collaborative partnership will provide direct implications for improving workplace communication and enhance better understanding of the construction of professional identity and organizational behaviour. This book will appeal to not only scholars and researchers in discourse analysis, intercultural communication and professional studies, but also practitioners in the related fields and disciplines.

**Paths to Justice**-Hazel Genn 1999-11 This book presents the results of the most wide-ranging survey ever conducted by an independent body or government agency into the experiences of ordinary citizens as they grapple with the kinds of problems that could ultimately end in the civil courts. The survey identifies how often people experience problems for which there might be a legal solution and how they set about solving them.

**Essentially Soap**-Robert S. McDaniel 2000-01 Consumers are no longer satisfied with the 'industrial' types of soap available at the shops. They want speciality soaps with just the right scent, emollients, and eye-appeal. They want to pamper themselves and their loved ones with 'personal' soaps made to suit their own tastes and preferences. Now they can get that perfect custom-made soap by making it themselves.

**Dozakhnama**-Rabisankar Bal 2012-12-28 Dozakhnama: Conversations in Hell is an extraordinary novel, a biography of Manto and Ghalib and a history of Indian culture rolled into one. Exhumed from dust, Manto’s unpublished novel surfaces in Lucknow. Is it real or is it a fake? In this dastan, Manto and Ghalib converse, entwining their lives in shared dreams. The result is an intellectual journey that takes us into the people and events that shape us as a culture. As one writer describes it, 'I discovered Rabisankar Bal like a torch in the darkness of the history of this subcontinent. This is the real story of two centuries of our own country.' Rabisankar Bal's audacious novel, told by reflections in a mirror and forged in the fires of hell, is both an oral tale and a shield against oblivion. An echo of distant screams. Inscribed by the devil's quill, Dozakhnama is an outstanding performance of subterranean memory.

**End of Days**-Sylvia Browne 2008-06-24 Religious wars, global terrorism, pandemics, and genocide have all helped to usher in the Anxiety Age. Who better to lead the way out than popular psychic Sylvia Browne? In End of Days, Browne tackles the most daunting of subjects with her trademark clarity, wisdom, and serenity, answering such difficult questions as: What's coming in the next fifty years? What do the great prophecies of Nostradamus and the Book of Revelation mean? If the world is really going to end, what will unfold in our final hours? For anyone who's ever wondered where we're headed, and what—if anything—we can do to prevent a catastrophe of biblical proportions, End of Days is a riveting and insightful must-read.

**Mr. Benson**-John Preston 2004-08-03 Mr. Benson is the compelling story of a young man’s quest for the perfect master. In a West Village leather bar, he finds wealthy, sophisticated, exacting Aristotle Benson, who leads him down the path of erotic enlightenment, teaching him to accept cruelty as love, anguish as affection, and ultimately, Mr. Benson as his master. If John Preston, the masterly, handsome author of more than 30 books, was himself a gay icon, his character Mr. Benson defined the culture of gay sex for an entire generation. When Mr. Benson appeared in the pre-AIDS early 1980s, its unabashed celebration of male sexuality made it a cult favorite among gay men, many of whom wore T-shirts declaring that they were "looking for Mr. Benson." The novel's fresh voice and insights into identity, desire, power, and love influenced a generation of writers and editors, including Anne Rice, Samuel Delany, Michael Lowenthal, Laura Antoniou, Joan Nestle, Michael Rowe, and Cecilia Tan. Mr. Benson was Preston's first novel and was followed by many more books from the proud, self-styled "pornographer."

**Antioxidants in Food**-Jan Pokorny 2001-04-12 Antioxidants are an increasingly important ingredient in food processing. Their traditional role is, as their name suggests, in inhibiting the development of oxidative rancidity in fat-based foods, particularly meat and dairy products and fried foods. However, more recent research has suggested a new role in inhibiting cardiovascular disease and cancer. Antioxidants in Food: Practical Applications provides a review of the functional role of antioxidants and discusses how they can be effectively exploited by the food industry. The first part of the book looks at antioxidants and food stability with chapters on the development of oxidative rancidity in foods, methods for inhibiting oxidation, and ways of measuring antioxidant activity. Part 2 looks at antioxidants and health, including chapters on antioxidants and cardiovascular disease, their antitumour properties, and bioavailability. A major trend in the food industry, driven by consumer concerns, has been the shift from the use of synthetic to natural ingredients in food products. Part 3 looks at the range of natural antioxidants available to the food manufacturer. The final section of the book looks at how these natural antioxidants can be effectively exploited, covering such issues as regulation, preparation, antioxidant processing functionality and their use in a range of food products from meat and dairy products, frying oils and fried products, to fruit and vegetables and cereal products.

**The Extraordinary Life and Death of Sunanda Pushkar**-Sunanda Mehta 2019-07-25 An extraordinary life. A strange death. The untold story of Sunanda Pushkar. On 17 January 2014, Sunanda Pushkar, businesswoman and wife of writer and politician Shashi Tharoor, was found dead in her hotel suite in New Delhi. Her death was as shocking as it was suspect, spawning many a controversy and complex legal battles. Her life was no less dramatic but far lesser known. A culmination of material drawn from personal archives, numerous interviews and investigation across continents, this riveting biography attempts to answer the question: Who really was Sunanda Pushkar? Was she a social climber hankering after power and fame? Or was she bold and unconventional, achieving success on her own merit only to become a casualty of circumstance? Was she a villain or a victim? Or a bit of both? In search of these answers, Sunanda Mehta, journalist and Pushkar's former schoolmate, traces her subject's life from her early days in cantonment towns, to her first two marriages, a largely unknown stint in Canada, her rise as a Dubai businesswoman, and finally her much-publicized years with Tharoor until her controversial death shook the nation. Through the soaring highs and wrecking lows that marked her forty-nine years, Sunanda Pushkar lived with passion, ambition and defiance. This definitive biography is the account of her phenomenal life and its turbulent end.

**Making Aid Work**-Abhijit Vinayak Banerjee 2007-03-23 An encouraging account of the potential of foreign aid to reduce poverty and a challenge to all aid organizations to think harder about how they spend their money. With more than a billion people now living on less than a dollar a day, and with eight million dying each year because they are simply too poor to live, most would agree that the problem of global poverty is our greatest moral challenge. The large and pressing practical question is how best to address that challenge. Although millions of dollars flow to poor countries, the results are often disappointing. In Making Aid Work, Abhijit Banerjee—an "aid optimist"—argues that aid has much to contribute, but the lack of analysis about which programs really work causes considerable waste and inefficiency, which in turn fuels unwarranted pessimism about the role of aid in fostering economic development. Banerjee challenges aid donors to do better. Building on the model used to evaluate new drugs before they come on the market, he argues that donors should assess programs with field experiments using randomized trials. In fact, he writes, given the number of such experiments already undertaken, current levels of development assistance could focus entirely on programs with proven records of success in experimental conditions. Responding to his challenge, leaders in the field—including Nicholas Stern, Raymond Offenheiser, Alice Amsten, Ruth Levine, Angus Deaton, and others—question whether randomized trials are the most appropriate way to evaluate success for all programs. They raise broader questions as well, about the importance of aid for economic development and about the kinds of interventions (micro or macro, political or economic) that will lead to real improvements in the lives of poor people around the world. With one in every six people now living in extreme poverty,

getting it right is crucial.

**Hunger**-Knut Hamsun 2008-02-19 From the Back Cover: A true classic of modern literature-and a forerunner of the psychologically driven fiction of Kafka, Camus, and Saramago. Hunger is the story of a Norwegian artist who wanders the streets of Christiania (now Oslo), struggling on the edge of starvation while trying to sell his articles to the local newspaper. As the hunger overtakes his body and his mind, the writer slides inexorably into paranoia and despair. The descent into madness is recounted by the unnamed narrator in increasingly urgent and disjointed prose as he loses his grip on his body and on reality itself. At the end-for reasons that remain unclear-he suddenly decides to sign on as a crewman aboard a ship and leave the city behind, saving himself from his otherwise certain death. Arising from Hamsun's belief that literature ought to be about the mysterious workings of the human mind-an attempt, as he wrote, to describe "the whisper of the blood and the pleading of the bone marrow"--Hunger is a landmark work that pointed the way toward a new kind of novel.

**Fintech in Islamic Finance**-Umar A. Oseni 2019-06-26 Featuring high-level analysis of Islamic law, this book examines fintech in Islamic finance from both theoretical and empirical perspectives. Whilst building on existing approaches, it also discusses the current application of fintech in promoting financial inclusion through innovative solutions in Muslim-majority countries, identifying future directions for policy-makers. With original chapters written by prominent academics, senior lawyers and practitioners in the global Islamic finance industry, this book serves as the first standalone pioneering reference work on fintech in Islamic finance. It also, for the first time, examines the position of Islamic law on cryptocurrencies, such as bitcoin. Besides the conceptual analysis of the Shari'ah and legal aspects of fintech in Islamic finance, this book provides relevant case studies showing current and potential developments in the application of fintech in various sectors ranging from crowdfunding and smart contracts, to Online Dispute Resolution, Investment Account Platform and identity verification in the KYC process. Setting the agenda for researchers in the field, Fintech in Islamic Finance will be useful to students and scholars of Islamic finance and financial technology.
