Savage Rule-Don Pendleton 2011-01-01 The rise of two ironfisted dictators creates a stunning national security threat for the American government: open war with Mexico. The volatile leaders of Honduras and Mexico have a blood deal financed by black gold, an oil pipeline built across Guatemala. Mack Bolan accepts a clear directive from the Man—stop the guerrilla raids and repel the invasion force. Bolan brings hell to Honduras, smashing the pipeline and blitzing through the shock troops spreading waves of terror across Central America. Gaining and keeping the battlefield momentum is Bolan's stock in trade. But the end game means neutralizing a violent incursion onto U.S. soil and toppling two brutal regimes by any and all means necessary.

California Bones-Greg van Eekhout 2014-06-10 When Daniel Blackland was six, he ingested his first bone fragment, a bit of kraken spine plucked out of the sand during a visit with his demanding, brilliant, and powerful magician father, Sebastian. When Daniel was twelve, he watched Sebastian die at the hands of the Hierarch of Southern California, devoured for the heightened magic layered deep within his bones. Now, years later, Daniel is a petty thief with a forged identity. Hiding amid the crowds in Los Angeles—the capital of the Kingdom of Southern California—Daniel is trying to go straight. But his crime-boss uncle has a heist he wants Daniel to perform: break into the Hierarch's storehouse of magical artifacts and retrieve Sebastian's sword, an object of untold power. For this dangerous mission, Daniel will need a team he can rely on, so he brings in his closest friends from his years in the criminal world. There's Moth, who can take a bullet and heal in mere minutes. Jo Alverado, illusionist. The multitalented Cassandra, Daniel's ex. And, new to them all, the enigmatic, knowledgeable Emma, with her British accent and her own grudge against the powers-that-be. The stakes are high, and the stage is set for a showdown that might just break the magic that protects a long-corrupt regime. Extravagant and yet moving, Greg van Eekhout's California Bones is an epic adventure set in a city of canals and secrets and casual brutality--different from the world we know, yet familiar and true. What We Say Matters-Ike Lasater 2016-08-09 Have you ever tried to tell someone what you want only to feel misunderstood and frustrated? Or hesitated to ask for what you needed because you didn't want to burden the other person? Or been stuck in blame or anger that wouldn't go away? Judith and Ike Lasater, long-term students of yoga and Buddhism, experienced dilemmas like these, too. Even though they had studied the yoga principle of satya (truth) and the Buddhist precept of right speech, it was not until they began practicing Marshall Rosenberg's techniques of Nonviolent Communication (NVC) that they understood how to live satya and right speech. In What We Say Matters, Judith and Ike describe their journey through NVC and how speech becomes a spiritual practice based on giving and receiving with compassion—everywhere, all the time—whether at home, at work, or in the world. Their writing is deeply personal, punctuated by their recounts of trial and error, success and failure, laughter and challenge—even in writing this book! They guide you through an introduction to NVC with clear explanations, poignant examples, suggested exercises, and helpful resources. With practice, you'll learn new ways to: • extend empathy to yourself and others • distinguish between feelings and needs • make requests rather than demands • choose connection over conflict • create mutually satisfying outcomes

Knuckleheads in the News-John Machay 1996 YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

The HP Way-David Packard 2013-10-15 In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached $25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago.
