**The Secret Space Program and Breakaway Civilization**-Richard M. Dolan 2016-08-16 Is there a secret space program that is connected in some way to UFOs? In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA. Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

**City on the Edge**-Mark Goldman At the beginning of the twentieth century, the city of Buffalo, New York, looked toward a future of great promise. During this era, the city was the host of a prestigious world's fair, The Pan American Exposition, and an industrial behemoth, the Lackawanna Steel Company, had just opened its doors. Buffalonians at this time had every reason to believe that these massive and impressive signs of progress augured well for the balance of the century. One hundred years later, at the beginning of the twenty-first century, Buffalo is on the verge of bankruptcy, and a new generation of citizens looks back wistfully, wondering what happened and where, now, they are headed. In a sweeping narrative that speaks to the serious student of urban studies as well as the general reader, Mark Goldman tells the story of twentieth-century Buffalo, New York. Goldman covers all of the major developments:· The rise and decline of the city's downtown and ethnic neighborhoods· The impact of racial change and suburbanization· The role and function of the arts in the life of the community· Urban politics, urban design, and city planning While describing the changes that so drastically altered the form, function, and character of the city, Goldman, through detailed descriptions of special people and special places, gives a sense of intimacy and immediacy to these otherwise impersonal historical forces. *City on the Edge* unflinchingly documents and describes how Buffalo has been battered by the tides of history. But it also describes the unique characteristics that have encouraged an innovative cultural climate, including Buffalo's dynamic survival instinct that continues to lead to a surprisingly and inspiringly high quality of community life. Finally, it offers a road map, which-if followed-could point the way to a new and exciting future for this long-troubled city. Mark Goldman (Buffalo, NY), a successful entrepreneur who has played a major role in revitalizing the cultural life of downtown Buffalo, is the author of *City on the Lake: The Challenge of Change in Buffalo, New York*.

**Myths and Legends of the Celts**-James MacKillop 2006-06-01 *Myths and Legends of the Celts* is a fascinating and wide-ranging introduction to the mythology of the peoples who inhabited the northwestern fringes of Europe - from Britain and the Isle of Man to Gaul and Brittany. Drawing on recent historical and archaeological research, as well as literary and oral sources, the guide looks at the gods and goddesses of Celtic myth; at the nature of Celtic religion, with its rituals of sun and moon worship; and at the druids who served society as judges, diviners and philosophers. It also examines the many Celtic deities who were linked with animals and such natural phenomena as rivers and caves, or who later became associated with local Christian saints. And it explores in detail the rich variety of Celtic myths: from early legends of King Arthur to the stories of the Welsh Mabinogi, and from tales of heroes including Cúchulainn, Fionn mac Cumhaill and the warrior queen Medb to tales of shadowy otherworlds - the homes of spirits and fairies. What emerges is a wonderfully diverse and fertile tradition of myth making that has captured the imagination of countless generations, introduced and explained here with compelling insight.
